April uitgawe -Paasfees

Fotograaf: Charmaine Janse van Rensburg

Paasfees bly 'n besonderse gebeurtenis op die kalender.

Met gemengde gevoelens vier ons die kruisiging en opstanding van ons Hemelse Vader.

Dit laat mens dink aan hoe lief God die mens moes hê, om Sy enigste seun vir ons sondes te laat sterf aan die kruis.

Kom ons raak stil in ons gedagtes en ons buig ons knieg voor God. Wat 'n voorreg om te weet dat ons Sy kinders is en dat God vir jou en my aan die kruis gesterf het. Dit is eintlik so hartseer. Ons verdien nie Sy genade nie, en tog is God ons genadig.

Die paaseiers en paashasie is nie regtig waaroor Paasfees gaan nie, maar ek is seker julle weet dit. Kom ons gaan in gebed as gesin en dank ons hemelse Vader dat Hy Sy seun aan die kruis gesterf het vir ons sonde.

Ek het die DVD gekyk oor die kruisiging van God.
Ek het so gehuil, Hy was gevloek, geskel, geslaan en op gespoeg. God het die kruis moedig gedra, sonder om terug te baklei.
Dit is so 'n mooi maar hartseer bybel verhaal.
As jy gelukkig is om die DVD te kry kyk dit gerus saam met jou gesin. En laat Jesus opnuut in jou lewe toe.

Gebruik die Paasfees om kosbare tyd saam met die familie en vriende te spandeer.

Geniet julle Paasfees.

Groete tot die volgende uitgawe.

Charms Xox

The Eagle and the snake.

The Eagle does not fight the snake on the ground. It picks it up into the sky and changes the battle ground, and then it releases the snake in the sky.

The snake has no stamina, no power and no balance in the air. It is useless, weak and vulnerable unlike on the ground where it is powerful wise and deadly.

Take your fight into the spiritual realm by God takes over your battles.

Don't fight the enemy in his comfort zone, change the battle grounds like the Eagle and let God take charge through your earnest prayer.

You'll be assured of clean victory.

Pray without ceasing.

Boelies in skole...

Boelies kan nie hulle emosies reguleer nie:
Wanneer kinders geïrriteerd of kwaad raak kan hulle hulself gewoonlik stop om dinge te doen wat ander kinders moontlik kan seermaak. Wanneer kinders nie die vermoë het om hulle emosies te reguleer nie kan klein struikelblokke/irritasies veroorsaak dat hulle oorreageer en dan heeltemal beheer oor 'n situasie verloor.

'n Voorbeeld hiervan is wanneer 'n kind onskuldig in die gange van die skool loop en dan per ongeluk teen 'n boelie vasloop. Selfs al vra die kind om verskoning kan die boelie sy humeur verloor en die ander kind slaan. Afknouery in skole is tans 'n groot probleem en iets wat deel van die samelewing sal bly indien ouers, onderwysers en ander rolspelers nie die oorsake van boeliegedrag identifiseer nie.

Met die korrekte hulpbronne en leiding kan kinders die regte hulpmiddele ontvang wat hulle benodig om konflik te hanteer, in stede daarvan om dit te hanteer deur ander te boelie.

Skoolgeweld en afknouery kan 'n invloed op enige kind uitoefen. Een van die vernaamste faktore wat van kinders en adolessente 'n teiken van afknouery maak is as hulle as "anders" beskou word.

Voorbeelde van andersheid sluit die volgende in:

Kinders wat wees gelaat word, kinders met gestremdhede sosiale status wat met etnisiteit geassosieer word, kinders in huishoudings waar MIV/Vigs, armoede en kulturele en taalverskille voorkom, asook kinders wat aan migrasie of verplasing blootgestel word. Volgens 'n Unesco-verslag kan fisiese voorkoms ook as risiko dien vir kinders of adolessente om 'n teiken van afknouery te word, soos byvoorbeeld om oorgewig of selfs ondergewig te wees.

Skole is veronderstel om 'n veilige hawe vir kinders te wees waar hulle nooit hoef te vrees om op die skoolterrein of speelgronde te beweeg nie – waar niemand vir hulle wag om hul lewe te versuur nie. Selfs al is dit die geval moet kinders kan huis toe gaan met 'n goeie gemoed waar hulle van die dag se drama by die skool kan vergeet. Ongelukkig werk dinge egter nie altyd uit soos 'n mens hoop nie. Met die toename in internetgebruikers kan al hoe meer kinders by hulle sosialemediarekeninge inteken en sodoende uitvind indien iemand van hulle skool iets vernederend oor hulle gepubliseer het. 'n Goeie voorbeeld hiervan is die geval van die 14-jarige Bloemfonteinse meisie wat deur twee seuns verkrag is terwyl 'n derde seun 'n video-opname daarvan gemaak het. Hierdie voorval kan as seksuele afknouery, asook kuberafknouery beskou word. Die berig daarvan is beskikbaar by http://maroelamedia.co.za/nuus/sa-nuus/hoerskoolseuns-verkrag-glo-meisie-14-op-video/.

Die meeste kinders besef dat boeliegedrag ander kan seermaak. So waarom sal een kind dan 'n ander kind wil boelie? Moet ouers, onderwysers en skooladministrateurs nie uitvind waarom sommige kinders dit nodig ag om ander te boelie nie? Daar is absoluut geen verskoning vir iemand om ander te teister, te martel of te verneder nie, maar die meeste boelies het onderliggende kwessies wat hulle tot hierdie tipe gedrag – boeliegedrag – dwing.

8 MARCH World KIDNEY DAY

CALL ALIDA @ 082 811 5301 TO ORDER YOUR TEA

USP

Kidney ailments = Stomach pain

Hayfever = Headache + Congestion

Kidney ailments = Lower back pain

BLADDER & KIDNEY TEA

PRODUCT BENEFITS

- Buchu helps to relieve water retention, hayfever, kidney ailments, nasal congestion and sinusitis

Kidney Health

During the month of March, awareness is raised around the importance of our kidneys. Chronic Kidney Disease (CKD) affects 1 in 10 people worldwide.

8 MARCH World KIDNEY DAY

The good news is that kidney disease is largely preventable.

Education and awareness of the risks of obesity and a healthy lifestyle, including proper nutrition and exercise, can dramatically help in preventing obesity and kidney disease.

TB - The low down

Could you have this potentially deadly disease, or be an unwitting carrier? With world TB Day on 24 March, find out the facts.

Most of us know truberculosis (TB) as a chronic infectious disease that attacks the lungs, destroying parts of them and making it hard to breathe. But that is just pulmonary TB.
The disease can, in some cases, attack other parts of your body, such as your digestive or urogenital system, lymph nodes, bones, joints and even skin (extrapulmonary TB)

Tb is the second only to HIV/Aids as the biggest infectious killer globally. and the World Health Organisation reports that South Africa has one of the highest infection rates.

Tuberculosis and HIV-related illnesses are the two leading causes of death among young people, say Piet Mabulane, acting CEO of the SA National Tuberculosis Association (SANTA). In the most recent figures available, of South Africans below age 35 who died in 2013, 10 962 died from HIV.

Yet if you detect TB early, and strictly stick to the treatment, it's easily curable.

KNOW THE SIGNS
Pulmonary TB, caused by the Mycobacterium tuberculosis bacteria, is signalled by:

A wet cough lasting longer than three weeks.
Bloody phlegm.
Chest pain.
Shortness of breath.
#Low-grade fever and chills., night sweats.
Loss of appetite and weight.
Feeling tired and generally being unwell.

The signs of extrapulmonary TB depend on where the bacteria are active. But here's the thing TB makes itself known, you may have inactive or "latent" TB.
With this, you don't feel sick or have symptoms; the bacteria may stay dormant for a lifetime, but if your immune system is compromised for any reason - HIV / Aids, severe stress, poor nutrition, drug and/or alcohol abuse - it can manifest, and the signs will appear.

If you think you may be at risk(see "Who's at risk"), or have the signs of TB, contact your healthcare provider immediately. They may refer you to a pulmonologist (a specialist in respiratory tract diseases. It's estimated that two in three South Africans may be infected with latent TB, says Piet, though most won't develop the disease provided their immune systems are kept strong.

Diagnosis is done with a simple sputum or blood test or a skin test for children unable to produce sputum.
If it shows you have pulmonary TB, a chest X-ray or CT scan will show any changes to your lungs.

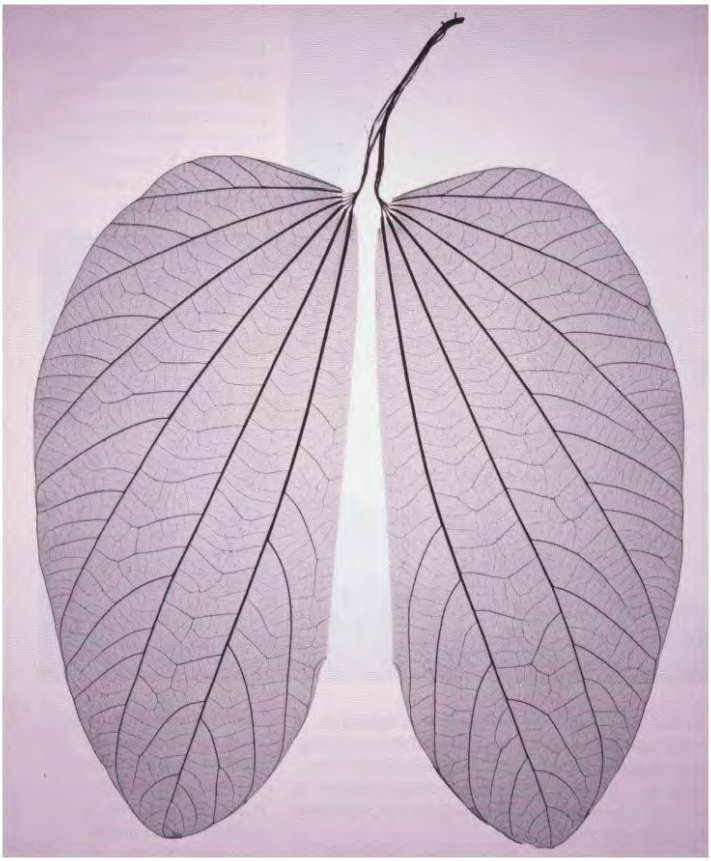

TREATMENT

This usually takes six months on various antibiotics, says Piet, and may be as short as four months with the newer combinations. It's crucial to take them exactly as directed and to complete the course, or you will be adding to the alarming problem of drug resistant strains of the bacteria that are evolving.

You may even be diagnose from the outset with a multi drug-resistant stain (MDR), or worse yet, an extensively drug-resistant stain (XDR),
These won't respond to the standard antibiotics - they require special drugs, some injectable, which need longer courses, are much more expensive and can have serious side effects. In South Africa, around 70% of people with XDR TB die in five years, reports Piet.

WHO'S AT RISK

People with HIV/Aids or other condition that lower immunity
IV drug users.
Anyone in contact with infected people.
Health or social workers who deal with infected people.

PREVENTION

The BCG vaccination given to babies as part of the government vaccination plan is estimated to be 60% effective against extrapulmonary TB in South Africa, and help protect against extrapulmonary TB, but is normally given to children.

There are also two preventive programmes in place, One is active case finding, where health or community workers go out looking for people who may have TB. The other is active contact tracing, where they trace family or work colleagues of people with TB, then test them. But lack of government funding limits these. People with HIV/ Aids are given IPT (isoniazid preventive therapy), a pill taken daily for six months to a year to help prevent TB developing, says Piet. The good news is that 3HP, which will require taking just one pill a week for 12 weeks, is on trail, and may replace IPT in the few years.

Boelies in skole- volg

Populariteit en mag kan as uiters belangrik deur boelies beskou word, daarom laat hulle hul toorn op slagoffers los wat gesien word as leerders wat nie so "goed", "sterk" of "mooi" soos hulle is nie. Boelies sal nooit iemand aanvat wie hulle weet teen hulle sal opstaan nie. Om die algemene oorsake van afknouery te verstaan, is dit belangrik om te weet wat die eienskappe van slagoffers van boeliegedrag is.

In die meeste gevalle is slagoffers:

Ongewild/nie so populêr soos die boelie nie
Van 'n ander ras of geloof
Homoseksueel
Swaksiende en dra dus bril
Van 'n ander sosio-ekonomiese agtergrond
Gestremdhede

Hoewel boelies selfversekerd voorkom, is hulle eintlik onseker oor hulleself en kan hulle ook minderwaardig teenoor ander voel. Wanneer hulle ander leerders sleg behandel, is dit 'n manier om hulle beter oor hulself te laat voel en hulle gebruik dit as 'n hanteermeganisme. Om die gevoel van mag en status te behou, moet die oortreder dus voortgaan met hierdie tipe gedrag.

Vyf algemene oorsake van afknouery:

Boelies kom uit wanfunksionele gesinne:

'n Wanfunksionele gesin waarborg geensins dat 'n kind in 'n boelie sal ontaard nie, hoewel meeste boelies uit huise afkomstig is waar daar min of geen liefde of eerlikheid is nie. Hulle neem ook op 'n gereelde basis waar hoe hulle ouers aggressief teenoor hul vriende, broers/susters of ander familielede optree.

Boelies moet in beheer wees: Kinders wat ander kinders rondstamp of slaan streef daarna om populêr te wees of mag te hê. Hulle vind dit bevredigend indien ander kinders hulle aan hulle onderwerp. Hierdie tipe kinders is impulsief en hardkoppig en floreer wanneer hulle slagoffers bang is in hulle teenwoordigheid.

Boeliegedrag word beloon: Die meeste kinders doen nie hierdie opsetlik nie, hoewel die oortreder per ongeluk beloon word wanneer die slagoffer opgee, soos byvoorbeeld om hulle snoepiegeld of besittings vir die boelie te gee. Hulle word dus ook beloon omdat hulle meer aandag kry deur ander te boelie en sodoende word hulle meer populêr of kry hulle meer mag omdat ander kinders vir hulle bang is. Hierdie beloning wat onbedoeld plaasvind het tot gevolg dat boeliegedrag versterk word en dit kan die oortreder aanmoedig om ander kinders ook te boelie.
Boelies neem nie ander se gevoelens in ag nie:

Sommige kinders het min of geen empatie nie, of hulle vind vreugde daarin om te sien hoe ander kinders ly. Wanneer hulle iemand seermaak, weet hulle geensins wat die slagoffer of die ander kinders om hulle voel nie. Soms kan die oortreder selfs plesier daarin vind om 'n ander kind seer te maak. Die reaksie van die slagoffer kan die boelie 'n gevoel van vervulling gee en daarom sal hy dus aanhou met hierdie tipe gedrag.

Staan op teen afknouery of te well boelies

GREAT MOMENTS AT THEIR GREATEST
VAALMALL

Movie Review

★★★★

Death Wish

Directed by: Eli Roth

Written By: Joe Carnahan

Actor: Bruce Willis

Our rating: ★★★★

Parents need to know that Death Wish is a remake of the 1974 Charles Bronson movie about a vigilante out for justice (both films were based on a novel by Brian Garfield).

Violence is extremely strong, with lots of blood, including spurting blood, bloody wounds, and other gory scenes. Guns are seen and shot frequently, characters die, women are threatened and attacked, and a character is tortured. An injured, bloody deer is shown. Language is strong, with many uses of "f--k," "s--t," "a--hole," and more.

A teen girl is ogled by one of her tormenters; he admires her "strong thighs." On a TV screen, a woman with a naked bottom is shown bowling, and a married couple kisses. The main character (Bruce Willis) has empty beer bottles in his home, and there's social drinking. It's hard to imagine this appealing to anyone other than director Eli Roth's fans.

Please note this is a very good movie, but be warned, of the violence and the extremely strong language.
This is another action movie!

We rated the movie 4 stars, but this is just our view. Please go and watch the movie now showing at Ster Kinecor Vaalmall , and tell us what is your rating.

Send your rating to charmaine@topvibe.co.za
