independent Phono-Graphix™ reading therapist

PRIVATE READING & SPELLING THERAPY OFFERED BY AN INDEPENDENT PHONO-GRAPHIX THERAPIST IN THE VAAL TRIANGLE AREA.

- Do you want your child to get a head start and learn how to read or improve his/her reading and spelling?
- Does your child guess words or struggle to read new/unfamilliar words?
- Are you worried that your child is learning words off by heart instead of learning the skill of reading?
- Does your child do well on Friday's spelling test but not in other writing activities?
- Is your child reading, but lacks fluency and confidence?

Give your child a head start or help him/her to improve his/her reading. *Phono-Graphix* reading therapists assist children with integrating basic reading and spelling skills into real life contexts and give them strategies and techniques to apply these skills. Links from Sound-to-Symbol-to-Meaning are made where learners are encouraged to develop their vocabulary, logical reasoning and basic comprehension skills.

Phono-Graphix is a straightforward reading method, which was developed by Carmen and Geoffrey McGuinnes in 1993, at the Read America clinic and was introduced to South Africa in the year 2000 by Read For Africa. It takes the sounds of the English language and teaches the various sound-pictures (letters) that represent those sounds in careful stages. The method is being used all over South Africa in numerous schools as well as globally.

Improve reading & spelling

Reading & spelling therapy from beginner readers to older children or adults
